

ARMA International Membership Levels

ARMA International’s membership opportunities allow our members to stay on top of the latest news and trends in the information management profession and allow you to engage ARMA and our arsenal of education tools and resources as it makes sense for you and your career. ARMA’s membership levels are broken out in the following categories:

Professional Member (\$175)

Professional Members receive discounts on all resources ARMA International provides. Members receive a digital subscription to our industry-leading Information Management magazine. And most importantly, Professional Members have 24/7 access to ARMA International’s On-Demand web seminars, free of charge – a catalog of more than 250 cutting-edge topics all at your fingertips, when you need answers to your most pressing questions. And, we continue to add to these valuable resources regularly. This membership level is ideal for any member, regardless of their career level, who can benefit from this level of access and substantial discounts on education and resources.

As you begin to assess what membership structure best fits your needs, please don’t hesitate to reach out with any questions. We’re here and happy to help. Simply email member@armaintl.org or visit www.arma.org/join for more information.

Associate Member (\$95)

Associate Members, or our ‘Professional Member Lite’, offers access to many of the ARMA education tools and resources available to professional members with some important limitations. This membership level is a great way for those new to information management to get up to speed and see what ARMA International can do for them.

Local Chapter Membership (Varies)

Local Chapter membership is optional for ARMA International members – *but highly recommended* – and comes at an additional nominal charge that varies per chapter. A Local Chapter Membership helps you build local networks and develop important leadership skills and your RIM skill set. This can lead to additional leadership positions at the regional and international level of ARMA.
